## Employment

### Android Engineer

#### Surf

Dec 2018 - March 2020

Surf places high-quality interactive tablets in ride-share cars for the entertainment of passengers, and the promotion of businesses, brands & media creators.

- Led the design, development, and implementation of [Surf V3](#), which allowed the company to scale to 3M+ riders per month.
- Engaged with industry leaders such as Paramount Pictures, Vevo and iHeartRadio, and integrated Surf's Android app with their platforms.
- Designed Surf's architecture to dynamically support multiple content types (videos, websites, advertisements, etc.) with the ability to target relevant content to riders in real-time using their location.
- Implemented industry-standard advertising standards (VAST/VPAID) in Surf to allow interfacing with Ad servers.
- Enabled real-time data visualization in Surf dashboards by integrating live analytics reporting using Segment.
- Contributed to the company's brand expansion by working on the company's [Auto and Banner applications](#).

### Lead Android Engineer

#### Xeeonix Technologies

Nov 2017 - Nov 2018

A Software development company, that provided multi-platform applications, efficiently and effectively. The company got closed in early 2019 and subsequently the website was taken down.

- Maintained and updated [iDictate](#) and [Quicktate](#); to support the latest Android versions.
- Led the development of the revamp of their home security client's applications combining them into a single multi-flavor application significantly reducing the project codebase.

### Android Engineer

#### Enablers Inc.

June 2016 - Oct 2017
